| 2 | EEE | **Project Zeroth Review Report** | **Date:** 29/09/2026<br>**Coord:** Prof. K. Ramu | The Department of Electrical and Electronics Engineering, Sanskrithi School of Engineering (Autonomous), Puttaparthi, conducted the Zeroth Review of the IV B.TECH I Semester Major Projects on 29/09/2026 for the academic year 2026-27. Twelve project batches (57 students) each presented their selected project title before faculty and fellow students. The review evaluated each team member'S individual contribution and attendance, and the guide-wise allocation of batches was recorded.<br>**Outcome: Project finalisation: All 12 batches finalised their titles, team leaders and guides, with team sizes of 4 to 5 students. Participation: 51 of 57 students (about 89%) presented; 6 were absent and were advised to complete the review with their guides at the earliest. Performance: The average mark of present students was 13.57. The highest was 18 (S. Iliyaz) and the lowest was 7 (P. Pallavi). Batch results: Batch 4 had the highest average (16.25) and Batch 7 the lowest (7.67), so Batch 7 needs closer mentoring. Individual accountability: Marks were awarded per student, not per batch, which encourages every member to contribute. Industry relevance: Most titles combine power systems or power electronics with AI, Ev and renewable integration, which suits current industry and research needs. Next steps: All batches were advised to meet their guides regularly and prepare the literature survey and detailed work plan for the First Review.**<br>[Proof Link] |

| 3 | EEE | **Mom-eee Department** | **Date:** 29/10/2026<br>**Coord:** Dr. N. Srinivasa Rao | The Department of Electrical and Electronics Engineering, Sanskrithi School of Engineering (Autonomous), held A department meeting on 26/10/2026 in the Pe Lab. Dr. Naarisetti Srinivasa Rao, Head of the Department, chaired IT, and all EEE faculty members attended. The meeting covered six points on academic discipline, student development and department activities: Class timings and punctuality Grooming and dress code for faculty and students Completion of final year project work Uploading of course material to Moodle Syllabus completion and revision Inauguration of the IEEE Student Chapter An attendance and signature sheet records the faculty present. **Outcome: Punctuality: Every lecturer must start and end the class at the scheduled time. Leaving before 4:35 Pm must be avoided. Dress code and discipline: Faculty must follow the college attire (plain shirt tucked in, black shoes). They must also ensure students have neat haircuts (A light beard is allowed), tucked-in shirts and shoes. Project timeline: All final year project batches should finish before December 2026. Mr. K. Ramu, Mr. Gangadhar and Mr. Vamsi Krishna said their batches can finish only by February 2027, so this needs follow-up. Digital resources: Notes for all 5 units and laboratory explanation videos are to be uploaded to Moodle without fail. Syllabus completion: Faculty must complete the syllabus, confirm that all 5 units are done, and start revision and old question paper practice if time permits. IEEE Student Chapter: The chapter will be inaugurated in November 2026 with an eminent person as Chief Guest. Action required: All faculty were asked to note the points and act accordingly.** [Proof Link] |
